Left to right: The slit skirt, the pantaloons skirt, the transparent skirt, the kneelet gown.

According to the Rev. Dr. Len G. Broughton, pastor of Christ church, Westminster, London, who delivered a sermon recently in New York on the subject "Shall we meet our beloved ones in heaven?" the styles worn by the women today bar them from heaven. He told his audience that women are wearing these extreme fashions so that they will be the subjects of gossip. "I am sure that the devil is having a carnival with these styles worn by women on the streets of New York," he declared. "The women appear to be no longer interested in clothing, but in the lack of it."

## Old-Time Delicacies.

Cleopatra, frail and fragile, like many thin people at heartily, and she guests wondered at the rarities of which they partook. There was every thing there that gastronomy could think of, except mutton, an exception in favor of the divine Ammon with the hamlet 12 ad. Even the roast beef and plum pudding were not lacking, for these delicacies were as popular as Thebes as was the broiled and salted goose, with the good brown stout, and strong barley wine to cheer the spirits and assist the digestion.

The ordinary cost of a Want Ad in the El Paso Herald is 25 cents. It reaches an average of about 70,000 readers each issue.

There is no remedy for cutting "the high cost of living" like that of thoroughly reading the ads in The Herald every evening. You are just bound to find something you need and at a saving. Try it!

Circulation statements, published by El Paso papers under the new postal law, substantiate The Herald's claim of having more than double the circulation of any other El Paso daily paper.

## The Man Who Never Gets Ahead

HE works hard, year in and year out. Does better work, perhaps earns more money, than he used to. But he does not get ahead. He is exactly as poor today as he was when he began earning his living as a boy. What is the matter?

HE HAS NEVER LEARNED TO SAVE MONEY.

Never has a dollar to invest. Never makes a dollar that does not come out of his pay envelope.

How much more contented he might be, how much better protected against want if he had MEANS OF HIS OWN saved out of his earnings, in a responsible bank.
